Career & Technical Education

CAREER & TECHNICAL

CAREER & TECHNICAL EDUCATION

Jodie L. Yankinin, Director of Career and Technical Education and Adult Practical Nurse Program
jodie.yankinin@ouboses.org

53 Gibson Road
Goshen, NY 10924
845-291-0300

Orange-Ulster BOCES Career and Technical Education programs give students the opportunity to graduate from high school with technical experience, professional skills, national industry certifications and college credit in a wide variety of high-demand occupations.

Through a hands-on academic component in each classroom, CTB students are able to integrate academics into their CTE curriculum to meet their high school graduation requirements. Many of the career academies are nationally accredited and feature leading-edge technology, as well as instructors with the latest trade experience. The CTE curriculum is aligned with Common Core State Standards, National Industry Standards, and Career Development and Occupational Studies (CDOS) Standards.

Students participate in work-based internships in the community; clubs such as SkillsUSA; local, state and national competitions and career-oriented community service projects.

The Career and Technical Education Division has programs located on two campuses in Goshen, one on Gibson Road and the other at the Regional Education Center at Arden Hill.
Career & Technical Education Academies

Jodie L. Yankarian, Director of Career and Technical Education and Adult Practical Nurse Program
jodie.yankarian@ouboces.org

53 Gibson Road
Goshen, NY 10924

691-301-6200

The Orange-Ulster BOCES Career & Technical Education Division operates programs for high school students in 12 career and technical education academies. Students attend their home high school for a half day and then attend their program on one of two campuses - the main CTE campus on Gibson Road in Goshen, or the Health Careers Academy at the Regional Education Center at Arden Hill, also in Goshen. Below are links to descriptions of the programs offered in each Career Academy.

Auto Body/Restoration
(formerly Collision Repair Technology)

If you like:
• working on automobiles and light trucks
• problem solving
• the challenge of changing technology
• taking pride in your work
• learning by doing
• restoring and modifying
• demonstrating your artistic ability
...then this program is for you!

Career Opportunities:
• Collision Repair
• Unibody Specialist and Assistant
• Refinishing Specialist and Assistant
• Claims Adjuster/Estimator
• Frame Specialist and Assistant
• Detailer
• Custom Paint & Graphics
• Fabricator—original & custom

National Automotive Technician Education Foundation (NATEF) areas of study:
• Collision Estimating
• Non-Structural Analysis and Damage Repair
• Plastics and Adhesives
• Painting and Refinishing
• Structural Analysis

About the Program:
Students in the Collision Repair Technology program are prepared for careers in the field through the use of the latest technologies and state of the art equipment. Throughout the program, students gain daily practical experience by working on vehicles while performing the above tasks. Selected students may be eligible for clinical and internship experiences at local repair facilities. Successful completion of the two-year Collision Repair Technology program can reduce the two years of experience required for Automotive Service Excellence (ASE) certification by one year.

Available Academic Credit:
• Career and Financial Management
• Common Core ELA (English Language Arts)
• Common Core Mathematics
• Technical Science

Required Supplies:
Two-piece uniform, leather work boots, safety glasses, binders for notes, flash drive, clear plastic sheet protectors and portfolio binder (approximately $150). Uniforms, safety glasses and leather work shoes must be worn in the automotive shops and at clinical sites.
What is the number of credits you could earn each year by taking a CTE program?
Uniform, Work Boots, Safety Glasses and/or a Supply Kit
What is required for some programs?
Tests, Quizzes, Homework, Preparation/Attitude and Hands-on Work
