Learning for Life
Winter/Spring 2020 Course Offerings
Welcome to our latest edition of the Orange-Ulster BOCES Adult Education course catalog! As the Director of Adult and Continuing Education, I am thrilled to provide you with information for all of the courses that we have in store for the winter and spring of 2020. Whether you are looking to start a new career, add skills for your current career, discover a new hobby, earn your high school equivalency diploma (formerly GED), or learn how to speak English through our English as a Second Language (ESL) classes, OU BOCES has what you are looking for and more!

In this catalog you will find an array of courses that cover a wide variety of topics and vocations which we hope you will find interesting and beneficial. Some of these new courses include Sewing for Beginners, General Welding, Small Engine Repairs, and an expanded list of culinary course offerings. We will also be continuing our newly developed integrated ESL and vocational training option specifically designed for English Language Learners.

OU BOCES continues to offer courses in many of the current in-demand fields including healthcare, construction trades, and computer skills, which are all designed to prepare students for immediate entry into the workforce. We work closely with many industrial and workforce development partners to make sure we are meeting the needs of the local businesses here in Orange County through our course offerings.

Along with our certificated programs, Adult Education offers some outstanding personal enrichment courses that will allow students to have fun and get creative while learning a new skill. Classes pertaining to topics such as cooking, baking, computer software, learning to play an instrument, painting, and photography are just a few examples of what OU BOCES has to offer.

Furthermore, I want to thank you again for taking the time to look through our 2020 Winter/Spring Catalog, and I hope you can find something that interests you! OU BOCES is always looking to expand our course offerings, so if you have any ideas for courses please feel free to reach out and let us know what you are interested in. For more information give us a call at 845-781-6715 or visit our website at www.ouboces.org and we will be happy to answer any questions you might have regarding this catalog.

Sincerely,
Andrew Carnright
ADULT EDUCATION
at Orange-Ulster BOCES

Career and Technical Education

The campuses at the Career and Technical Education Center in Goshen, Middletown Adult Learning Center, and the Newburgh Adult Learning Center provide Career and Technical Education programs that are affordable, short-term and convenient for the adult learner. Course curriculum is industry-specific and emphasizes practical applications of key concepts and skills in well-equipped labs providing real world experiences. Many programs offer payment plans and funding from local partnering agencies may be available for eligible people. Investigate possible funding opportunities available at an Information Session.

Literacy

High School Equivalency - (Ages 16-24)
Our Second Chances program serves out-of-school youth ages 16-24. Earn your high school equivalency diploma, get paid for job internships, and build a winning resume to succeed in the workforce.

High School Equivalency - Adults
Free academic classes are available to individuals 21 years of age or older who are without a high school diploma and who need to prepare for the Test Assessing Secondary Completion (TASC)TM exam. Career counseling, transition to career and technical education or college, and the skills to successfully gain employment are embedded in each class. Orange-Ulster BOCES is pleased to offer this class in English and Spanish.

English as a Second Language - Adults
Free classes are available for those foreign language students 21 years of age or older who need help speaking and writing English, or just need to improve their skills. ESL students have access to all of the support services available, such as job search, financial literacy classes, health and wellness classes and a wide array of cultural activities to help students acclimate to the American experience.

Support Services
Orange-Ulster BOCES employs literacy case managers to assist students pursuing personal, educational and employment goals. Staff meet with employers regularly to ensure that services offered match with local employment needs. OUBOCES partners with many agencies that may help students with tuition.

Practical Nurse (PN) Program - 1,104 Hours

The PN program adheres to NYS approved curriculum and is comprised of 1,104 hours of instruction. Successful course completion is required to be eligible to sit for the Practical Nurse State Board Exam. Our program has a proven success record; our first time State Board pass rate consistently beats the NYS average. Our instructors have an average of 25 years of experience.

Admission Requirements:
- High school diploma or high school equivalency (with scores)
- Attend PN Information/Financial aid session
- Successful completion of the TABE exam (waived if college graduate from an accredited institution)
- Successful completion of the TEAS exam
- $250.00 non-refundable registration fee (MasterCard, Visa or money order)
- Interview with Team Leader/Instructor
- Two professional references (forms provided at the interview)

Please note admission to the PN program is very competitive and many requirements must be met, both prior to registering and throughout the duration of the program. Meeting the minimum requirements listed above does not guarantee admission to the program.

After receipt of acceptance letter:
- Pass a urine drug screen and criminal background check
- Submit a completed physical exam
- Provide a current immunization record
- Obtain American Heart Association Healthcare Provider CPR card (Adult, Infant and Children)

2020 Practical Nurse Program Information Sessions

All information regarding enrollment and financial aid will be provided. This is the first step to enroll in the PN program. Interested candidates must attend one of these sessions.

*Registration is not required to attend an Information Session*

Please arrive 15 minutes early. Seating is limited to the first 50 people. Photo ID is required.
Children are not permitted to attend.

Information sessions and classes are held at the Orange-Ulster BOCES Regional Education Center at Arden Hill 4 Harriman Drive, Goshen, NY 10924.

Full-time and part-time classes begin in September and follow a traditional school calendar. Full-time class meets Monday through Friday, between the hours of 8:00AM and 3:00PM. Part-time classes meet one full day and three half days per week. Currently there are no evening or weekend classes. Admission testing is offered from February through June.

2020-2021 Tuition:
Full-Time: $14,500 (approximately), Part-Time: $7,250 (approximately)
Approximate cost of books, uniforms and fees: $1,000.00

For more information please call: (845) 781-4642

WWW.OUNBOCES.ORG
Medical Programs at OUBOCES

The Hudson Valley has seen a tremendous increase in the number of group practices, clinics and other healthcare facilities. This growth is partly due to a rapidly aging population, causing an increased need for medical professionals. In addition, the number of individuals with access to health insurance has risen due to federal healthcare reform. As patient access to medical care grows, additional trained staff will be required at these facilities. Train for a position in this growing field!

Sterile Processing - 600 Hours

Sterile Processing Technicians are responsible for the decontamination and sterilization of laboratory and healthcare equipment and supplies to ensure they are safe for future use. This is achieved through manual cleaning and through the use of sterilization equipment such as autoclaves. Records of sterilization must be maintained, and equipment is inspected for defects. Sterile Processing Technicians also organize and assemble instrument trays, crash carts and medical equipment, and collect them after use. They are often responsible for the restocking, labeling and distribution of supplies, as well as the maintenance of inventory.

Important qualities for Sterile Processing Technicians include the ability to work independently and follow detailed instructions, good organizational skills, physical stamina, and a strong sense of honesty and ethics.

Employment of medical preparers such as Sterile Processing Technicians is projected to grow 14% from 2014 to 2024, faster than the average for most occupations. Source: U.S. Bureau of Labor Statistics.

Following classroom hours, 400 hours of clinical experience is required for international certification. Clinical hours take place Monday through Friday with a 40-hour shift each week. This will require a minimum of 10 to 12 weeks. It is the student’s responsibility to make necessary arrangements in work, childcare and transportation, in order to be available for clinical assignment.

Please also note that students will be required to lift up to 30 pounds as part of the profession’s normal daily routine.

Admission Requirements: Attendance at an Information Session is suggested; please see page 5. U.S. high school diploma or equivalency required. A successful TABE assessment with a reading level of 10 and a math level of 8 is also required. An interview by the program coordinator and completing the Symplr approval process (including urine drug screens and criminal background checks) are also required. To schedule an interview please call (845) 781-6715 extension 10826. See pricing/schedule on page 15.

Program Requirements: Required textbooks, royal blue scrubs, completed Symplr approval prior to course/clinical placement, International Association of Healthcare Central Service Material Management Exam (IAHCSMM).
Phlebotomist Technician - 155 Hours

Phlebotomists are responsible for drawing blood from patients and donors. This blood is used for medical laboratory tests, transfusions, research, and also donations. Phlebotomists often assemble and maintain their medical instruments such as needles, vials and test tubes. They are responsible for labeling the blood drawn and entering patient information into a database. Phlebotomists work primarily in hospitals, laboratories, doctors’ offices and blood donor sites.

Important qualities for phlebotomists include hand-eye coordination, dexterity, compassion and attention to detail.

*Employment of phlebotomists is projected to grow 25% from 2014 to 2024, much faster than the average for most occupations. Source: U.S. Bureau of Labor Statistics.*

In this course, 80 classroom hours are devoted to venipuncture, proper methods of blood collection, safety precautions and infection control. Upon successful completion of classroom hours, the remaining 75 hours will be spent in clinical assignments to various area health care facilities, labs or hospitals. This clinical time is mandatory. It will take place Monday through Friday during daytime hours and will require travel. It is the student’s responsibility to make necessary arrangements in work, childcare and transportation in order to be available for clinical assignment. Students are not certified until the NHA Certification Exam is passed.

**Admission Requirements:** A successful TABE assessment may be required for applicants without a U.S. high school diploma. A reading level of 10 and a math level of 7.5 is required for this course. Call for information: (845) 781-6715 EXT. 2. An interview will follow with the clinical coordinator. Attendance at an Information Session is suggested; please see page 5.

**Program Requirements:** Required textbooks, gray scrubs, completed physical exam with two-step PPD (purified protein derivative) prior to clinical placement.

**Optional for additional fee:** National Healthcareer Association exam.

---

Calling All Allied Health Professionals!

Contact: Robert Hess (845) 781-6715 EXT. 10826
Clinical Medical Assistant - 240 Hours

Clinical Medical Assistants complete both administrative and clinical tasks in medical offices, hospitals, and other healthcare facilities. Their duties vary depending on the location and practice. Duties include recording patient personal information and history, performing basic laboratory tests, gathering vital signs such as blood pressure, helping the physician with patient examinations, and scheduling patients for appointments and testing.

Important qualities for Clinical Medical Assistants include being detail oriented and having effective interpersonal and technical skills.

*Employment of Medical Assistants is projected to grow 23% from 2014-2024, much faster than the average for most occupations.*

The Clinical Medical Assistant program consists of the medical field foundations: terminology, anatomy and physiology, and medical law and ethics. Classroom time includes in-house clinical practice. Some class meetings might take place at an alternate location and might meet outside of scheduled hours—students are responsible for their own transportation. Students will earn Heartsaver First Aid, CPR, and BLS Certification.

**Admission Requirements:** Attendance at an Information Session is suggested; please see page 5. Either a successful TABE assessment or a valid U.S. high school transcript/equivalency or college transcript must be provided. A reading level of 10 and a math level of 8 is required for this course. Call for information: (845) 781-6715 EXT. 2. See pricing/schedule on page 15.

**Program Requirements:** Required textbooks, gray scrubs.

**Optional for additional fee:** National Healthcareer Association exam.

(845) 781-6715 EXT. 10773
EKG Technician - 100 Hours

If you already work in healthcare and would like to add an additional credential to increase your value, consider the EKG Technician program. Students will practice on EKG equipment and learn about stress testing, electrocardiography and the anatomy and physiology of the heart. Students will receive their own blood pressure cuff, stethoscope and EKG calipers.

EKG Technicians (also known as Electrocardiogram Technicians) operate EKG equipment to monitor and test the cardiovascular performance of their patients, who are usually experiencing chest pain or other cardio-related symptoms. Electrodes and wires are attached to a patient’s body by the technician and the electrical impulses transmitted by the patient’s heart are recorded with the EKG. The technician checks the quality of the recorded data and provides it to the physician for analysis.

Important qualities for EKG technicians include attention to detail, stamina, and interpersonal and technical skills.

Employment of EKG technicians is projected to grow 24% from 2014 to 2024, much faster than the average for most occupations. Source: U.S. Bureau of Labor Statistics.

Admission Requirements: Although not required, previous medical experience or knowledge is recommended for enrollees. Attendance at an Information Session is suggested; please see page 5. Either a successful TABE assessment or a valid U.S. high school transcript.equivalency or college transcript must be provided. A reading level of 10 and a math level of 8 is required for this course. Call for information: (845) 781-6715 EXT. 2. See pricing/schedule on page 15.

Program Requirements: Required textbooks, gray scrubs.

Optional for additional fee: National Healthcareer Association exam.

National Healthcareer Association (NHA) and Orange-Ulster BOCES

We are pleased to continue our affiliation with the National Healthcareer Association (NHA). Recommended and approved by colleges and healthcare career programs around the country, NHA’s certification and continuing education programs have helped nearly 500,000 individuals earn a higher pay scale, better job opportunities, career advancement and security. That number grows by the minute as the healthcare industry grows, and as more states require certification for healthcare professionals.
Nurse Assistant - 130 Hours

Nurse Assistants help provide basic care for patients, working in hospitals and long-term care facilities under the supervision of a Registered Nurse. Nurse Assistants are often the principal caregiver, providing important social and emotional support. Typical daily duties often include: cleaning, bathing and dressing patients, moving and lifting patients, reporting patients’ health concerns to nursing staff, assisting nurses with medical equipment, checking patient vital signs, serving meals and helping patients eat. Important qualities for Nurse Assistants include effective communication skills, compassion, patience, and physical stamina.

Employment of Nursing Assistants is projected to grow 17% from 2014-2024, much faster than the average for most occupations. Source: U.S. Bureau of Labor Statistics.

This 130-hour course includes 100 classroom hours as well as 30 hours clinical practice that satisfy the NYS mandated supervised hours of clinical practice in a residential health care facility (RHCF). Reimbursement for part of the training and/or testing fees paid by the individual may be available if the individual obtains RHCF Nurse Aid employment or an offer of RHCF Nurse Aid employment within 12 months of completion of the training program, or within 12 months of the date of testing. (Employer provides reimbursement.) On-site testing provided for OUBOCES students.

Admission Requirements: Attendance at an Information Session is suggested; please see page 5. Either a successful TABE assessment or a valid U.S. high school transcript/equivalency or college transcript must be provided. A reading level of 10 is required for this course. Call for testing and registration information: (845) 781-6715 EXT. 2. A completed physical examination with two-step PPD (purified protein derivative) is required prior to clinical placement. Royal blue scrubs are required. See pricing/schedule on page 15.

Included: Clinical component to satisfy NYS requirement, NYS testing fee and textbook(s).

Home Health Aide - 120 Hours

Home Health Aides (HHA) assist people who have disabilities, chronic illness, or cognitive impairment with their daily activities. Their duties often include providing support with bathing and dressing, checking vital signs and assisting with prescribed medication regime. Light housekeeping, such as laundry, dishes, and vacuuming are often part of a HHA’s activities. Sometimes a HHA will plan appointments and arrange transportation to doctors’ offices.

Employment of Home Health Aides is projected to grow 38 percent from 2014 to 2024, much faster than the average for most occupations. Source: U.S. Bureau of Labor Statistics.

Training includes learning how to provide direct patient care, observe/report changes in patient’s status, provide a clean and safe environment, assist with meal planning, etc. The program also provides training in completing health related tasks, such as measuring blood pressure, pulse, temperature, and respiration. Students will learn to direct patients in simple prescribed exercises under the direct care of a physician. A clinical practice component is included in this program. In addition, a criminal background check will be required.

Admission Requirements: Either a successful TABE assessment or a valid U.S. high school transcript/equivalency or college transcript must be provided. A reading level of 8 is required for this course. Call for information: (845) 781-6715 EXT. 2.

Program Requirements: Required textbooks, royal blue scrubs.

(This course is currently offered as an integrated ESL course ONLY, please see page 13.)
Medical Billing and Coding - 200 Hours

This course is designed to prepare students for a career as a medical coder/biller in a physician’s office. Topics include Medical Terminology, Anatomy and Physiology, and Medical Coding: purposes, principles and guidelines. Class includes instructions on ICD 10 CM, CPT and HCPCS coding including determination of the levels of Evaluation and Management services.

The course also covers the basic principles, regulations, and guidelines of the insurance claim processing procedures and the regulations and guidelines of diagnostic and procedural coding. This program will help to prepare students to take the AAPC Certified Professional Coder (CPC) exam or the National Health Association Certified Billing and Coding Specialist (CBCS) exam.

Medical Billing and Coding Specialists organize and manage health information data by ensuring its quality, accuracy, accessibility, and security in both paper and electronic systems. They use various classification systems to code and categorize patient information for insurance reimbursement purposes, databases and registries, and to maintain patients’ medical and treatment histories.

According to the Department of Labor’s Occupational Outlook Handbook, employment in the area of Medical Billing and Coding is projected to grow 13 percent from 2016 to 2026, much faster than the average for all occupations. In the Mid-Hudson region, jobs for people in all ambulatory health care services are expected to increase by 37 percent by 2022, which is the highest increase of any industry. The demand for health services is expected to increase as the population ages. An aging population will need more medical tests, treatments, and procedures. This will mean more jobs for individuals in the billing and coding field in order to file claims for reimbursement from insurance companies.

Admission Requirements: Attendance at an Information Session is suggested; please see page 5. Either a successful TABE assessment or a valid U.S. high school transcript/equivalency or college transcript must be provided. A reading level of 10 and a math level of 8 is required for this course. General keyboard and computer skills are required. See pricing/schedule on page 15.

Program Requirements: Students must register for the course in person at one of our Adult Education locations. Students enrolling will also register online through AAPC in order to purchase textbooks and CPC exams at a discounted rate. AAPC enrollment will be aided by the course instructor once the course begins or shortly before the start date.

Optional for additional fees: AAPC Certified Professional Coder (CPC) Exam and/or the National Healthcareer Association Certified Billing and Coding Specialist (CBCS) exam.

Integrated English as a Second Language and Vocational Training Programs

These programs are designed specifically for adult English language learners who are interested in enrolling in vocational training while simultaneously learning how to read, write and speak the English language. Students who participate will be co-enrolled in a contextualized health-care or technology-specific English as a Second Language (ESL) course along with the vocational training course which will run concurrently. Students who enroll must attend both the ESL and vocational portions of the course with no exceptions. Program tuition must be funded through a partnering agency.

If you would like testing, registration or funding information, please call (845)781-6715 EXT. 10830 or EXT. 10843

Home Health Aide (HHA) / English as a Second Language (ESL)
270 Hours, 54 Sessions
Offered in Newburgh and Middletown
Schedule: M-Th 9:00AM to 2:00PM
Next session begins in Winter 2020, depending on enrollment.

Admission Requirements: Students must be current US citizens or have legal resident status. A TABE reading score of 6.0 or BEST Plus score of 453 is required.
Program Requirements: Required textbooks and royal blue scrubs.
Included: Clinical component to satisfy NYS requirement and NYS testing fee.

Nurse Assistant (NA) / English as a Second Language (ESL)
280 Hours, 56 Sessions, Tuition $1,820
Offered in Newburgh and Middletown
Schedule: M-Th 9:00 AM to 2:00PM
Next session begins Winter 2020, depending on enrollment.

Admission Requirements: Students must be current US citizens or have legal resident status. A TABE reading score of 7.0 or BEST Plus score of 525 is required.
A completed physical examination with two-step PPD (purified protein derivative) is required prior to clinical placement.
Program Requirement: Royal blue scrubs
Included: Clinical component to satisfy NYS requirement, NYS testing fee and textbook.

IC3 (Microsoft Office Suite) / English as a Second Language (ESL)
250 Hours, 63 Sessions, Tuition $1,188
Offered in Newburgh and Middletown
Schedule: M-Th 12:00PM to 4:00PM
Next session begins Winter 2020, depending on enrollment.

Admission Requirements: A BEST Plus score of 453 is required.
Program Requirement: Required textbook.

SÍ, HABLO ESPAÑOL
Pharmacy Technician - 100 Hours

Pharmacy Technicians work under the supervision of a registered pharmacist in hospitals, pharmacies and other healthcare settings. As increasing demands are made on healthcare pharmacy providers, the opportunities for trained Pharmacy Technicians will increase, as will their responsibilities.

Employment of Pharmacy Technicians is projected to grow 12% from 2016 to 2026, faster than the average for most occupations. Source: U.S. Bureau of Labor Statistics.

This Pharmacy Technician course is taught by a licensed Pharmacist with 37 years of experience in numerous fields of practice including nuclear pharmacy, institutional practice environments, in home infusion and compounding pharmacies. The course is designed to help students gain practical knowledge and experience that only an instructor in a live classroom setting can provide.

This course will help prepare students to take the Pharmacy Technician Certification Exam (PTCE). The instructor will advise students as to the many different fields in pharmacy practice available. The course curriculum will include drug classification, pharmacology, medical terminology, and proper drug administration. Passing the PTCE exam will enable students to gain an entry-level Pharmacy Technician position.

Requirements include textbook/workbook reading and assignments in addition to attendance of classroom lectures. The lectures will provide additional real life practical, professional experience information to reinforce reading assignments. Please note students must have no criminal record to be eligible to sit for the Pharmacy Technician Certification Exam (PTCE).

Following classroom hours, 40 hours of clinical experience is required for course completion. Clinical hours may take place 7 days a week based on clinical site availability which may include evening or overnight shifts. It is the student’s responsibility to make necessary arrangements in work, childcare and transportation, in order to be available for clinical assignment.

Admission Requirements: Attendance at an Information Session is suggested; please see information below. U.S. high school diploma or equivalency required. An interview by the instructor and/or program coordinator and completing the Drug test/Background check, and/or Symplr approval process (including urine drug screens and criminal background checks) are also required. To schedule an interview please call (845) 781-6715 extension 10780. See pricing/schedule on page 15.

Program Requirements: Required textbooks, completed drug testing, background check, and/or Symplr approval prior to course/clinical placement.

Informational Session: Session date and time TBD. Check back in Spring 2020 for details. *Information Session will take place at the Goshen CTEC Building which is located at 53 Gibson Road, Goshen, NY*

Please check our online catalog at WWW.OUBOCES.ORG/CATALOG for regularly updated schedules and new, unadvertised course offerings!
Health Careers Academy

Attendance at an Information Session is suggested. Requirements: TABE or Waiver, Registration in Person.

Sterile Processing Technician - 600 Hours, $7,200 (Days/times do not include clinical hours) Book(s), uniform and testing fee(s) are not included. Order textbooks online at IAHCSMM.org.
- A5547 WI-20 Middletown/ORMC 9:00AM - 3:00PM Friday & Saturday 2/7 - 8/29/20
- A5547 SP-20 Middletown/ORMC 9:00AM - 3:00PM Friday & Saturday 5/8 - 11/29/20

Phlebotomist Technician - 155 Hours, $2,325 (Dates do not include clinical hours/days) Book(s), uniform and testing fee(s) are not included. See textbook list for ISBN#.
- A9891 WI1-20 Middletown 5:00PM - 9:00 PM M, T, W 1/21 - 3/11/20

- A9891 SP-20 Middletown 5:00PM - 9:00 PM M, T, W 5/27 - 7/7/20

Clinical Medical Assistant - 240 Hours, $3,600 Book(s), uniform and testing fee(s) are not included. See textbook list for ISBN#.
- *A5574 WI1-20 Newburgh 8:00AM - 3:00PM M, T, W 1/6 - 3/31/20
- A5574 WI2-20 Middletown 9:00AM - 2:00PM M, T, W 3/2 - 6/24/20
- A5574 SP1-20 Middletown 4:30PM - 8:00PM M, T, Th 4/6 - 9/22/20
- A5574 SP2-20 Newburgh (Schedule and Date TBD Check back in early 2020 for details)

EKG Technician - 100 Hours, $1,400 Book(s), uniform and testing fee(s) are not included. See textbook list for ISBN#.
- A9093 WI1-20 Newburgh 2:00PM - 6:00PM T, Th 1/7 - 4/7/20
- A9093 SP-20 Middletown 5:00PM - 9:00PM M, Th 4/6 - 6/30/20

Nurse Assistant - 130 Hours, $1,820 Uniform is not included.
- A5650 WI1-20 Middletown 5:00PM - 9:00PM T, W, Th 1/7 - 3/25/20
- A5650 WI2-20 Middletown 8:30AM - 3:00PM M, T, W, Th 2/18 - 3/30/20
- A5650 WI3-20 Newburgh 5:30PM - 9:00PM T, W, Th 3/17 - 6/11/20
- A5650 SI1-20 Newburgh 8:30AM - 3:00PM M, T, W, Th 4/6 - 5/18/20
- A5650 SP2-20 Middletown 5:00PM - 9:00PM T, W, Th 4/7 - 6/24/20
- A5650 SP3-20 Middletown 8:30AM - 3:00PM M, T, W, Th 5/26 - 7/2/20

Medical Billing and Coding - 200 Hours, $3,000 Book(s) and testing fee(s) are not included. See textbook list for ISBN#.
- A5591 FA-19 Middletown 9:00AM - 1:00PM T, W, F 12/3 - 4/17/20
- A5591 SP-20 Middletown 9:00AM - 1:00PM T, W, F 4/28 - 8/28/20

Pharmacy Technician - 100 Hours, $1,400 (Dates do not include clinical hours/days) Book(s) are not included. See textbook list for ISBN#.
- A5575 WI-20 CTEC/Goshen (Schedule and Date TBD Check back in early 2020 for details)

Home Health Aide - 120 Hours, $1,680 (Dates do not include clinical hours/days) Book(s), uniform and testing fee(s) are not included. See textbook list for ISBN#.
- A5654 WI-20 Dates/Times TBD Check our website for updates

Payment plans are available for the following Health Careers courses: Sterile Processing Technician, Phlebotomist Technician, Clinical Medical Assistant, EKG Technician and Medical Billing and Coding
Please inquire about payment plan fees and requirements at registration.
Automotive Academy

Are you interested in Automotive Repair and Maintenance as a career? Get trained at Orange-Ulster BOCES! We have a modern, clean, state-of-the-art training facility. Our experienced instructors are ready to help you learn the skills necessary to obtain employment with a comprehensive knowledge of the automobile and its systems. Over the course of one year, six units will be offered. These units must be taken in order from Unit 1 through Unit 6.

Admission Requirements Prior to Registration: Either a successful TABE assessment or a valid U.S. high school transcript/equivalent or college transcript must be provided. A reading level of 8.5 and math level of 8 is required for this course. Book required. Attendance at an Information Session is recommended.

Program Requirements: Required textbook and appropriate protective clothing including overalls or dickies, and work boots.

Automotive Academy Units:

Unit 1: Engines and Cooling Systems – 48 Hours
Unit 1 of the Automotive Academy is an in-depth introduction to engines and cooling systems. Break down engines, learn about timing systems and belts, troubleshoot cooling systems, and perform routine maintenance. Textbook required, order online.

Unit 2: Electrical Systems – 48 Hours
Unit 2 lays the foundation for all future classes. In this class, students will learn about the role of the battery and ways to test it. They will become familiar with the operation of charging and starting systems, learn about series and parallel circuits and how they operate, as well as the different types of fuses and how to test them. Students will become proficient in the use of a digital multi-meter and how to diagnose basic electrical problems. Textbook required, order online.

Unit 3: Fuel and Emissions Systems – 48 Hours
Learn about all the different types of fuels used in today’s hi-tech automobiles. Curriculum includes: where gasoline and diesel fuels are derived and produced, the different types of fuel injection systems and their operation, how to test and replace the different types of fuel system components, diagnosing basic fuel injection system related problems, types of emissions, emissions systems components and testing, fuel and emissions related to DTCs and how to diagnose them. Textbook required, order online.

Unit 4: Ignition Systems – 48 Hours
Students will learn the different types of ignition systems used today, the two major electrical circuits used in the ignition system, the different types of spark plugs, wires, ignition coils, and their operation. Curriculum also includes how to test and replace the different types of ignition system components, and ignition system related DTC's (diagnostic trouble codes). Textbook required, order online.

Unit 5: Brakes – 48 Hours
Learn how disc and drum brake systems work. This includes component inspection and repair, master cylinder testing and repair, and bleeding the brake system. Expanded curriculum also covers anti-lock braking systems and restraint systems (seatbelts and airbags), as well as all electronic systems relating to brakes. Includes: Anti-lock Brakes (ABS), Electronic Traction Control (ETC), and Electronic Stability Control (ESC). Textbook required, order online.

Unit 6: Suspension, Tires, and Alignment – 48 Hours
Learn how suspension systems work, including: components, testing, repair of shocks and struts, tire service, CV axle inspection, removal and replacement, all joints, tie rod ends, and rack and pinion steering. Also included are: mounting, dismounting, and balancing tires, four-wheel alignments (including castor, camber, and toe) using electronic alignment equipment, and electronic suspension. Textbook required, order online.

All 6 units use the same textbook. See schedules on the next page.
Introduction to Auto Body – 48 Hours

In this introductory course students will learn the basics of auto body and collision repair. Topics covered include types of automotive frames and how to repair them, repairing steel and removing damage, using a stud welder, applying body filler and primer, using dual action sanders, removing and reinstalling exterior panels, removal and installation of glass, troubleshooting window switches, applying corrosion protection, refinishing and custom paint.

**Introduction to Auto Body - 48 Hours, $804**

- **Unit 4: Ignition Systems**
  - A1331 WI-20  CTEC/Goshen  5:30PM - 8:30PM  M, T, W, Th  1/27 - 2/16/20

- **Unit 5: Brakes**

- **Unit 6: Suspension, Tires, and Alignment**
  - A1333 SP-20  CTEC/Goshen  5:30PM - 8:30PM  M, T, W, Th  4/20 - 5/14/20

Please see our next catalog for the Units 1, 2, and 3 Schedule. Units must be taken in order from Unit 1 through Unit 6.

Small Engine Equipment Maintenance - 18 Hours

Join us for this course to learn about winterization and how to prepare your small engine equipment for storage. Equipment troubleshooting, carburetor rebuilds and basic tune-ups will be covered as well as DIY blade sharpening, bearing replacements and more. Participants will be encouraged to bring in their own small engine equipment to work on as part of the class.

**Small Engine Equipment Maintenance - 18 Hours, $270**

- A1557 WI-20  CTEC/Goshen  6:00PM - 9:00PM  T  1/21 - 2/25/20

*NEW* Small Engine Repair - 18 Hours

Small Engine Repair will expand upon the basic maintenance of small engined equipment and allow students to get hands on with parts of the actual engine itself. Students will learn about small engine parts, how the engine works, part replacements, and diagnosis of small engine issues.

*Small Engine Maintenance is not a pre-requisite for taking Small Engine Repairs.*

**Small Engine Repair - 18 Hours, $270**

- A1402 SP-20  CTEC/Goshen  6:00PM - 9:00PM  T  4/21 - 5/26/20
NCCER and Orange-Ulster BOCES

Orange-Ulster BOCES offers National Center for Construction Education and Research (NCCER) curriculum and national certifications for many trades.

NCCER sets the standard in construction education. NCCER’s training process includes instructor certification, standardized curriculum, an automated national registry for successful program completers, and assessment/certification programs that are nationally endorsed and supported by leading contractors, associations and manufacturers. NCCER credentials are portable and industry-recognized around the country for those who successfully complete programs and assessment requirements. NCCER programs include theory and varying amounts of hands-on instruction. Homework will be assigned and content material will be assessed regularly.

Every NCCER Level 1 course includes NCCER Core Curriculum: Introductory Craft Skills which will demonstrate basic trade knowledge to employers. Employers today want reassurance that potential candidates can prove that they have all of the skills needed to be successful on the job. Topics include Basic Safety, Introduction to Construction Math, Introduction to Hand Tools, Introduction to Power Tools, Introduction to Construction Drawings, Basic Communication Skills, Basic Employability Skills and Introduction to Materials Handling. Students must successfully complete Core Curriculum to receive NCCER National Certification for Level 1. Those who successfully pass all NCCER Core Curriculum modules will receive a NCCER transcript.

A successful TABE assessment will be required for applicants without a high school diploma/equivalency or a college transcript. A reading level of 8.5 and a math level of 8 are required for these courses. Students must register in person after prerequisites have been met. Payment is due at time of registration. Payment plans are available for NCCER programs. Books are required; order online. All Level 1 programs include Core Curriculum; therefore, the Core textbook is required in addition to the program textbook. Textbooks are required for the first day of class.

Students who successfully complete NCCER Level 1 Programs, the NCCER Core Curriculum and BOCES’ attendance requirements will receive a BOCES Certificate of Completion, NCCER Level 1 Certificate and wallet card.

Students who successfully complete NCCER Level 2 programs and meet BOCES’ attendance requirement will receive a BOCES Certificate of Completion, and an NCCER Level 2 Certificate.
NCCER Electrical Level 1 - 160 Hours
To prepare you for a career in the electrical industry, we offer this comprehensive curriculum based on the National Electrical Code, which complies with the Department of Labor’s time-based standards for apprenticeship. The Occupational Electric Program follows the NCCER Level 1 curriculum and includes Core Curriculum.
Level 1 includes the following modules:

NCCER Electrical Level 2 - 132 Hours
The Occupational Electric program follows the NCCER Level 2 curriculum. This level is a continuation of the program and will build on the knowledge and skills learned in Unit 1.
Level 2 includes the following modules:
Alternating Current, Motor Theory and Application, Electric Lighting, Conduit Bending, Pull and Junction Boxes, Conductor Installations, Cable Trays, Conductor Terminations and Splices, Grounding and Bonding, Circuit Breaker and Fuses, Control Systems and Fundamentals. Prerequisite: NCCER Electrical Level 1. See pricing/schedule on page 21.

NCCER HVAC Level 1 - 132 Hours
This program is designed to present theoretical and practical skills essential in the increasing development of the HVAC (heating, ventilation, and air conditioning) field. The Occupational HVAC program follows the NCCER Level 1 curriculum and includes Core Curriculum.
Level 1 includes the following modules:

NCCER HVAC Level 2 - 100 Hours
This program has been designed to combine several NCCER modules that will be most useful in the industry. Each module is reported to NCCER towards the student’s training transcript.
Level 2 includes the following modules:
NCCER Welding Level 1 - 212 Hours
Welding is a high-tech industry that can take you from NASCAR to National Defense. Welding is an integral component of all other industries. The Occupational Welding program follows the NCCER Level 1 curriculum. This program includes Core Curriculum. There are required supplies for this program, which are not included in the tuition price. A supply list will be provided at registration.

Level 1 includes the following modules:
Welding Safety, Oxyfuel Cutting, Plasma Arc Cutting, Air Carbon Arc Cutting and Gouging, Base Metal Preparation, Weld Quality, SMAW Equipment and Setup, Shielded Metal Arc Electrodes, SMAW Beads and Fillet Welds, Joint Fit-Up and Alignment, SMAW Groove Welds with Backing, SMAW Open V-Groove Welds, Brass Brazing, and an introduction to MIG welding. See pricing/schedule on page 21.

Looking to learn to weld but don’t need certification? Check out Welding Basics and General Welding, page 22.

NCCER Plumbing Level 1 - 132 Hours
Homeowners might think that plumbers only unclog drains and install toilets and sinks, but they are also trained to maintain and repair many types of pipe systems. Employment of plumbers, pipe fitters, and steamfitters is projected to grow 26% by 2020, faster than the average for many occupations. Demand for plumbers is expected to come from many new building projects in the Mid-Hudson Region and increased requirements for stricter water efficiency standards for plumbing systems. This program includes Core Curriculum.

Level 1 includes the following modules:

NCCER Carpentry Level 1 - 140 Hours
Carpentry makes up the largest building trades occupation in the industry and those with all-around skills are in high demand. Carpenters are involved in many different kinds of construction activities, from building highways and bridges to installing kitchen cabinets. Carpenters construct, erect, install, and repair structures and fixtures made from wood and other materials.

Level 1 includes the following modules:
Building Materials, Hand and Power Tools, Reading Plans and Elevations, Floor Systems, Wall and Ceiling Framing, Introduction to Concrete, Reinforcing Materials and Forms, Windows and Exterior Door and Basic Stair Layouts. Also included in NCCER Carpentry Level 1 is Core Curriculum. See pricing/schedule on page 21.

Space is Limited
Register Early!
*NEW* NCCER Carpentry Level 2 - 100 Hours
This program follows the NCCER Level 2 curriculum. This level is a continuation of the program and will build on the knowledge and skills learned in Unit 1.

Level 2 includes the following modules:
Commercial Drawings, Roofing Applications, Thermal and Moisture Protection, Exterior Finishing, Cold-Formed Steel Framing, Drywall Installation, Drywall Finishing, Doors and Door Hardware, Suspended Ceilings, Cabinet Installation, and Window, Door, and Ceiling Trim.
Prerequisite: NCCER Carpentry Level 1. See pricing/schedule below.

NCCER CERTIFIED PROGRAM SCHEDULES
Requirements: TABE or transcript, Registration in Person.
Attendance at an Information Session is suggested.

NCCER Electrical Level 1 - 160 Hours, 40 sessions, $2,525
A1491 RA3-19 Goshen/CTEC 5:00PM - 9:00PM M, T, W, Th 12/2 - 3/2/20

NCCER Electrical Level 2 - 132 Hours, 33 sessions, $2,037
A1492 WI1-20 Goshen/CTEC 5:00PM - 9:00PM T, Th 2/20 - 6/18/20
A1492 WI2-20 Goshen/CTEC 5:00PM - 9:00PM M, T, W 3/16 - 6/8/20

NCCER HVAC Level 1 - 132 Hours, 33 sessions, $2,037
A1487 WI-20 Goshen/CTEC 5:00PM - 9:00PM T, W, Th 1/7 - 3/24/20

NCCER HVAC Level 2 - 100 Hours, 25 sessions, $1,543
A1488 SP-20 Goshen/CTEC 5:00PM - 9:00PM T, W, Th 4/14 - 6/9/20

NCCER Welding - 212 Hours, 53 sessions, $3,604*
*Requires additional supplies that are not included in the tuition price. See website for supply list.
Coming in fall 2020, see our next catalog.

NCCER Plumbing Level 1 - 132 Hours, 33 sessions, $2,037
A1486 WI-20 Goshen/CTEC 5:00PM - 9:00PM M, T, W 3/30 - 6/22/20

NCCER Carpentry Level 1 - 140 Hours, 35 sessions, $2,240
Coming in fall 2020, see our next catalog.

NCCER Carpentry Level 2 - 100 Hours, 25 sessions, $1,543
A1496 WI-20 Goshen/CTEC 5:00PM - 9:00PM T & Th 3/10 - 6/9/20

Textbooks are not included in tuition price. All Level 1 Programs require their textbook PLUS Core textbook. Level 2 Programs require their textbook.

Refrigerant Handling for Certification - 9 Hours
Students will prepare for the Refrigeration Service Engineers Society Certification, which meets the EPA requirements for proper use of refrigerants, including recovery, recycling and reclamation. PLEASE NOTE: Exam will be given in class on last night, testing begins at 5PM. A payment of $35 will be collected on test date. Order textbook online.

Refrigerant Handling for Certification - 9 Hours, 3 sessions, $150
Book and testing fee are not included in tuition. See textbook list for ISBN#.
A1341 FA-19 CTEC/Goshen 6PM - 9PM T, W, Th 12/17 - 12/19/19
A1341 SP-20 CTEC/Goshen 6PM - 9PM M, T, W 4/6 - 4/8/20

Check our online catalog at WWW.OUBOCES.ORG/CATALOG for regularly updated schedules.
Welding Basics - 20 Hours
This class is designed for the beginner welder, artists, craftsmen, and weekend mechanics. Students will get hands-on oxygen/acetelyne cutting and arc welding instruction, as well as an introduction to MIG welding, using cutting/brazing torch-arc (stick) welders on 1/4" and 1/2" plate steel using E6010 1/8 diameter rods and E7018 1/8 diameter rods.

*NEW* General Welding - 40 Hours
This class is designed for those looking to learn a bit more than a basic level. Students will learn oxygen/acetelyne cutting for flat angle, channel steel beveling, holes, and straight cutting. Students will also learn ARC welding with 1/8 and 1/2 steel rods including flat, T-joints, horizontal, vertical, and overhead welds. Lastly students will learn the basics of MIG welding and also learn some brazing, plasma cutting, and carbon arc. Safety procedures will be covered throughout the course.

*For Welding Basics and General Welding classes BOCES will provide materials, safety glasses, and welding gloves. Students must provide welding shields (helmet – preferably auto darkening), cutting goggles or glasses with a #5 filter, hat, and protective clothing (jacket, denim, heavy cotton, leather, etc.) Work boots are required.

EQUIPMENT OPERATOR SCHEDULE
Forklift Operator Training - 15 Hours
This introductory course will teach you the fundamentals of operating a forklift. This section is designed for those with little or no experience operating a sit-down counterbalanced forklift and serves as a prerequisite to the following Forklift Operator Certification class. Basic safety will also be covered. If you have little or no experience, you will need this class first to pass the certification test.

Forklift Operator Certification - 9 Hours
This course covers all the OSHA requirements necessary for 3-year certification. If you have little or no experience on a counterbalanced lift truck, you must first take Forklift Operator Training or you risk not being issued a certification. Please note this is a nine hour course, your final examination night will be scheduled within the listed date range.

Heavy Equipment Operator - 75 Hours
This class will introduce individuals into the world of operating heavy equipment. The class will include measuring the ground height using a tripod and builder’s level and operating a bulldozer, backhoe and excavator. Amounts of material for a job and simple job estimating will be introduced. A valid driver’s license is required to attend this class.

WEB: www.ouboces.org
SECURITY GUARD

8-Hour Pre-Assignment Training Course for Security Guards
This is an 8-hour course required by New York State as the first step in obtaining a security guard registration card from the New York State Department of State. The course provides the student with a general overview of the duties and responsibilities of a security guard. Topics covered include the role of the security guard, legal powers and limitations, emergency situations, communications and public relations, access control, and ethics and conduct. The passing of an examination is required for successful completion of this course.

16-Hour On-the-Job Training Course for Security Guards
This is a 16-hour course that must be completed within 90 days of employment as a security guard. The course provides the student with detailed information on the duties and responsibilities of a security guard. Topics covered in this course include the role of the security guard, legal powers and limitations, emergency situations, communications and public relations, access control, ethics and conduct, incident command system, and terrorism. The passing of an examination is required for successful completion of this course.

8-Hour Annual In-Service Training Course for Security Guards
This is an 8-hour course that must be completed within 12 calendar months from completion of the 16-hour on-the-job Training Course for Security Guards, and annually thereafter. The course is structured to provide the student with updated and enhanced information on the duties and responsibilities of a security guard. Topics include the role of the security guard, legal powers and limitations, emergency situations, communications and public relations, access control, ethics and conduct.

100% attendance is required for any of the three security courses offered. If there are any issues that the Director of the school cannot resolve, please call the Division of Criminal Justice Services at (518) 457-4135. Drop fees indicated in our Course Catalog do not apply to Security Guard classes. Security Guard students are entitled to a 100% refund if course is dropped prior to the start of instruction. For 16-hour classes, students are entitled to a 50% refund if the student cancels after the start of instruction, but before the start of the second class.

INCLEMENT WEATHER DELAYS AND CLOSINGS

Please check the home page of our website www.ouboces.org or call (845) 781-6715; a recorded message will relay information if applicable.
Cisco Certified Network Administrator Level 1: Introduction - 72 Hours
In this introductory course, students will learn the architecture, structure, functions, and components of the internet and other computer networks. Students who successfully complete this course will be able to build simple LANs and subnet networks, perform basic configurations for routers and switches, and implement IP addressing schemes.

Cisco Certified Network Administrator Level 2: Routing/Switching - 72 Hours
In the second course in the Cisco Certified Network Administrator (CCNA) Routing and Switching Curriculum, students will learn how to configure a router and a switch for basic functionality. Students who successfully complete this course will be able to configure and troubleshoot routers and switches and resolve common issues with RIPv1, RIPng, single-area and multi-area OSPF, virtual LANs, and inter-VLAN routing and access control lists.

Both CCNA courses are aligned to prepare students with an understanding of networking. After completion of the courses, students may opt to take the CCENT (Cisco Certified Entry-Level Network Technician) Exam. All material is online and students will be able to configure and troubleshoot network configurations using a combination of packet tracer and hands on equipment.

Computer-Aided Design (CAD) - 30 Hours
AutoCAD is used by professionals in a wide range of industries. Industrial designers, technicians, interior designers, architects, engineers and workers in many other career fields rely on this software to help them find and implement design solutions. While these professionals once relied on a drafting board and drafting tools, they now rely on CAD software.

Students are introduced to the AutoCAD drawing environment and the necessary skills to begin creating and editing drawings. The focus of this course is on using accurate and efficient techniques to draw and modify basic shapes. No AutoCAD experience is necessary, but participants are expected to have basic computer knowledge and the ability to read blueprints.

Students will learn: interfacing with AutoCAD, using accurate drawing techniques, displaying areas of a drawing, working with object properties, creating and editing shapes, adding text and dimensions and printing.

Computer-Aided Design (CAD) - 30 Hours, 10 Sessions, $450
A2551 SP-20 CTEC/Goshen 6:00PM - 9:00PM M & W 4/15 - 5/18/20

Self Publishing - 6 Hours
Self Publishing is an easy to follow 2-day class outlining the three-step process of self-publishing books from writing the manuscript, to publishing it as an actual book, and finally launching it to sell on Amazon as well as other booksellers. This will further show students how to set up Microsoft Word properly to produce a formatted file ready to be uploaded to online book printers including Kindle Direct Publishing (owned by Amazon) and Ingram Spark. Topics including Copyright, Library of Congress, International Book Numbers, and bar codes will be explained in easy to follow steps as well. Several books, self-published by the instructor, will be available for class participants to examine. Traditional publishing via literary agent and a main-stream publisher will also be addressed in this class.

Self Publishing - 6 Hours, $109
A8012 WI-20 CTEC/Goshen 6:00PM - 9:00PM W 3/4 - 3/11/20

*NEW* Using Microsoft Word to Format & Publish a Book - 6 Hours
Ready to write your book? With a few customizations, Microsoft Word might be the perfect writing tool, but you can’t just open Word and start typing. There are some things you need to understand first including: margins, page size, image quality, headers and footers, bleeds, page numbering, section breaks, table of contents, heading types, and page navigation, just to name a few. This class helps new writers get organized and accustomed to using Microsoft Word to develop their craft.

*NEW* Using Microsoft Word to Format & Publish a Book - 6 Hours, $109
A8013 WI-20 CTEC/Goshen 6:00PM - 9:00PM W 3/25 - 4/1/20
CALL: (845) 781-6715 EXT. 2 FOR INFORMATION!

American Sign Language for Beginners - 30 Hours
Do you live or work with someone who uses American Sign Language to communicate? Do you want to learn about deaf culture? No matter what your reasoning, this introductory course is designed for anyone looking to learn the basics of American Sign Language. (ASL) American Sign Language is the complete and natural language of the Deaf and Hard-of-Hearing in America. This visual language utilizes the whole body to share thoughts and ideas. Throughout this 30 hour course, students will learn basic vocabulary, commands, common phrases, and ASL grammar and sentence structure while gaining knowledge of deaf culture and history.

American Sign Language for Beginners - 30 Hours, 15 Sessions, $450
*Book not included in tuition. See textbook list for ISBN#
A6004 SP-20 CTEC/Goshen 6:00PM - 8:00PM M & W 4/15 - 6/8/20

*NEW* Sewing For Beginners - 21 Hours
This introductory course will teach students how to use a sewing machine along with teaching the various techniques used to construct garments. Students will gain knowledge of the range of fabrics that are used to construct garments. Pattern cutting and sewing of a pair of pants with zipper and a button-down shirt will also be covered in this class.

*NEW* Sewing for Beginners - 21 Hours, 7 Sessions, $315
A2990 WI-20 CTEC/Goshen 5:00PM - 8:00PM W 3/4 - 4/22/20

Paint and Perk! - 2 Hours
What do you call a group painting class similar to Paint and Sip when you drink coffee, tea, or soft drinks instead of alcohol? Paint and Perk, of course! In this group painting lesson participants will paint a predetermined seasonal image while enjoying a non-alcoholic beverage of your choosing. By the end of the night, you will complete and keep your creation. Please bring an apron and perhaps something to drink or snack on (no coffee will be supplied). Canvas, paints and brushes will be supplied for the project. Please go to www.ouboces.org/projects to view the painting projects scheduled for each date.

Paint and Perk - 2 Hours, 1 Session, $40

All14 SP-20 CTEC/Goshen 6:00PM - 8:00PM W 5/27/20

*NEW* Horseback Riding for Beginners - 48 Hours
This program is for students who have never been on a horse or have some experience and want to brush up on their skills. By the end of the twelve week program students should be able to walk, trot and canter their horse as well as groom and tack up their mount.

Students will acquire not only riding skills but also horsemanship and will learn the general care of the horse. Students will be required to master basic proficiency in tacking and untacking a horse and will also learn grooming skills and reading the body language of the horse before they ride. Safety is of the utmost importance for this course. Upon completion of the course students will take a simple proficiency test.

The course will be run at Ivy Rock Farms 99 Purdys Lane New Windsor, NY. Ivy Rock has a superb selection of horses for students to ride during their lessons. With a dust-free heated indoor space, large outdoor arena, and beautiful trails all located on 120 acres, Ivy Rock offers an amazing location to learn how to ride and care for horses.

(Please note, students must be physically fit and in good health in order to enroll in the course since horseback riding can be physically demanding. Also, horses can only carry up to a certain weight and therefore individuals weighing over 220lbs unfortunately cannot enroll.)

*NEW* Horseback Riding for Beginners - 48 Hours, 24 Sessions, $1,560
A3502 WI-20 Ivy Rock Farms 7:00PM - 9:00PM M & W 3/2 - 5/27/20

WORKSPACE AND TECHNOLOGY SKILLS TRAINING:

WordPress Website Design - 12 Hours

WordPress is one of the most popular Content Management Systems on the internet due to its powerful plugins and tens of thousands of free themes. This class will introduce you to WordPress and assist in getting your website set up and running. Topics also include how to obtain your own web presence, how to set up WordPress with a theme and plugins, and uploading and editing content.

Your First Computer Class - 15 Hours

In this class you will learn basic computer hardware and software terms and what you should know when buying a computer. Learn how to navigate Windows and use software to type and print a letter. Navigating the internet and internet etiquette and safety will also be covered. Saving your work and your photos to a flash drive will be taught as well.

Intro to Microsoft Office Suite - 30 Hours

Learn the basics of Word, Excel, Access, and PowerPoint in this class. Topics include document formatting, working with graphics, basic formulas, queries, and reports. This class is instructor-led with lecture and hands-on format.

Microsoft Office Suite IC3 - 99 Hours

This program covering Microsoft Office is highly recommended for those looking for an office job or wanting to upgrade their computer skills. It covers the material in the IC3 Certification Program which will bring you up to speed on the latest office technology and help you become an efficient and competent office employee. This course is targeted towards people who are new to computers or have limited exposure to a computer prior to taking this course. Topics include: Computing Fundamentals - knowledge and use of computer hardware, software, and operating systems; Living Online - working in an internet or networked environment, including basic knowledge of networks and the internet; skills in specific applications such as electronic mail software and Web browsers; finding and evaluating information; and an understanding of issues related to computing and using the internet at work, home and school. Key Applications - MS Word, MS Excel, MS PowerPoint. At the end of the class, students may be recommended to sit for the IC3 exam, which will require an additional fee. Textbook is required for this course.

Microsoft Word - 12 Hours

Microsoft Office is the most widely used productivity software in the world. In this introductory class students will learn to create, edit and format Microsoft documents using the ribbons, tabs, templates, themes and more.

Microsoft Excel - 12 Hours

In this introductory class students will learn how to create, edit, and format basic worksheets and workbooks in Microsoft Excel. Learn the functions of the ribbons and tabs, manipulate your data to perform calculations using frequently-used commands, use Excel’s Quick Analysis tool, and learn how to modify the worksheet and the appearance of data.

A+ Certification - 72 Hours

A+ Certification is the industry-wide standard for entry level Computer Technicians. This prep course provides instruction in hardware and software including: repair, upgrade and troubleshooting Windows compatible computers. Students will prepare for the current Comp TIA A+ exams. Prerequisite: Basic computer knowledge. Please note: OUBOCES does not offer these exams at this time. Please visit VUE.COM or PROMETRIC.COM for testing sites and vouchers. Comp TIA recommends 6 months of hands on experience before taking the exam. Textbook required.

Memorable Moments: Photo Slideshows - 6 Hours

Take your candid photos to a whole new level! Here you will learn how to make a video slideshow with not only pictures, but home videos as well. Using Adobe Premiere and After Effects, bring your own photos, videos, graphics and music to create a slideshow that will “WOW” your friends and family, while also sharing memorable moments with them.
BUSINESS ACADEMY:

Notary Public Workshop – 3 Hours
This workshop will prepare you for the examination required for an appointment as a Notary Public in New York State. Key terminology will be reviewed and examples will be provided to illustrate situations that a notary public is likely to encounter. This will help prepare you to handle a variety of special situations, while minimizing legal liability. Every person appointed as a Notary Public must, at the time of his or her appointment, be a citizen or permanent resident alien of the United States and either be a resident or have an office or place of business in New York State. Please call (518) 474-4429 with questions regarding this workshop. Textbook required.

QuickBooks – 30 Hours
This condensed program is designed to give you basic knowledge of QuickBooks. The program will cover getting started, setting up, working with lists and bank accounts, entering sales, accounts receivable, and accounts payable. Windows and basic computer experience are required. All Students will need a flash drive.
*Please note, the WI-20 QuickBooks course will be taught in-person but will utilize QuickBooks Online software (5 month trial is included in the purchase of a textbook). Please contact our vocational department for more information regarding this course.

Introduction to Google Suite - 30 Hours
This course will prepare participants to create and utilize their own Google account as a way to access Google applications including Google mail, Google Calendar, and Google Drive. With one multipurposed account users can access the robust Google platform as a way to simplify and organize their busy lives. Google continues to provide cutting edge technology and user experience which makes it continue to be one of the best options for online organization. If you’re interested in ditching your old and outdated email account come check out our Intro to Google Suite class!

Culinary Courses

Chef Essentials with Chef Chad Metcalf - 15 Hours
Have you ever considered entering the food service industry or refining your skills in the kitchen? This introductory course will provide you with the basics of food preparation, food safety/sanitation and knife skills. Learn the basics to prepare, brine and cook meats to obtain a great braise. We will then cover stocks which can be used as a base for flavorful soups, chowders and more. Additional topics include vinaigrettes and meat marinades, appetizers, and desserts.

Chef Essentials - 15 Hours, $300  
A5162 WI-20 CTEC/Goshen 6:00PM - 9:00PM T & Th 3/12 - 3/26/20

Baking Boot Camp with Chef Anthony Acevedo - 15 Hours
Bake, taste, learn and have fun exploring the world of baking. Your exploration will take place under the guidance of an experienced chef in a first class teaching kitchen. Orange-Ulster BOCES’s Chef Anthony will cover the fundamental skills and techniques for bakers of all skill levels. Hands on practice and instruction will help students master concepts and techniques. Small class sizes allow for individual attention.

Baking Boot Camp - 15 Hours, $225  
A5018 WI-20 CTEC/Goshen 6:00PM - 9:00PM W 3/4 - 4/1/20

*NEW* Bread Making 101 with Chef Anthony Acevedo - 12 Hours
Bread making is one of the world’s oldest and tastiest traditions. In this 12 hour class students will learn about ways to make different types of breads from across the globe including sweet rolls, savory rolls, traditional loaves of different types of bread, and tons of other tasty goodies. If you love the wonderful world of bread, you won’t want to miss this one!

*NEW* Bread Making 101 - 12 Hours, $180  
A5152 WI-20 CTEC/Goshen 6:00PM - 9:00PM T, W 5/12 - 5/20/20

All culinary students are asked to wear clothing appropriate for working in a commercial kitchen. Please refrain from wearing shorts, sleeveless shirts, or open toed shoes. Gloves will be supplied. Students are asked to bring their own aprons.
Cake Decorating 1 - 15 Hours
In this beginner course students will learn the technical aspects of cake decorating techniques such as cake assembly, the correct use of the pastry bags, and how to use the different types of decorating tips. Students will learn to write on cakes, create piped borders, and make buttercream flowers. We will also discuss cake design and learn how to decorate rosette cakes, ombre cakes, petal cakes, and watercolor cakes. On the first night of class students will be given a supply list of items to purchase including pastry bags, tips, and other decorating tools. These supplies are not included in the tuition price.

Cake Decorating 1 - 15 Hours, $225
A5151 WI-20 CTEC/Goshen 6:00PM - 9:00PM Th 2/6 - 3/5/20

*NEW* Cake Decorating 2 - 15 Hours
(Must have already completed the original Cake Decorating 1 course)
In Cake Decorating 2, we will learn new techniques that will build on the basic skills that you learned in the original Cake Decorating 1 course. In this course students will be working with fondant, making gum paste roses, creating sculpted cakes, and tier cakes.

*NEW* Cake Decorating 2 - 15 Hours, $225
A5012 SP-20 CTEC/Goshen 6:00PM - 9:00PM Th 3/12 - 4/9/20
A5012 WI-20

Sugar Cookies - 6 Hours
In this fun hands-on class, you’ll master the surprisingly simple techniques for transforming royal icing and sugar cookies into edible art. After preparing and baking delicious scratch-made sugar cookies, our chef will then walk you through the steps for incorporating colors into icing and practice piping skills to create beautifully decorated cookies.

Sugar Cookies (Valentine’s Day Theme) - 6 Hours, $120
A5161 WI-20 CTEC/Goshen 6:00PM - 9:00PM M & W 2/10 - 2/12/20

All About Icing Cupcakes - 3 Hours
Don’t know your ganache from your buttercream? In this class we will learn the differences between the many different types of icing and explore some of the best ways in which they can be used on your favorite kind of cupcake. Please bring at least six unfrosted cupcakes to decorate in class, and don’t forget a container to bring your masterpieces home!

All About Icing Cupcakes - 3 Hours, $60
A5163 SP-20 CTEC/Goshen 6:00PM - 9:00PM M 4/6/20

*NEW* Homemade Doggie Delights - 3 Hours
Learn how to make delicious treats for your fur baby from scratch. In this class you will bake different kinds of homemade pupcakes and cookies without having to worry about any potentially harmful artificial chemicals or preservatives. Each student will receive recipes along with some treats to take home to your dog!

*NEW* Homemade Doggie Delights - 3 Hours, $60
A5098 SP-20 CTEC/Goshen 6:00PM - 9:00PM W 4/15/20
NEW* Pickle This! - 3 Hours
Ever wondered how to pickle your own foods? In this class you’ll learn what pickling is, what happens to our food when it’s pickled, and what the benefits are for your health. Students will quick-pickle different vegetables in class while also preparing more time consuming pickles to take home and share. This isn’t your average pickle!

NEW* Taco Night - 3 Hours
Who says tacos are only good on a Tuesday? This class will teach you to create both authentic and non-traditional tacos that are sure to please your tastebuds. You won’t want to miss this one!

NEW* Pie, Pie, Pie! - 3 Hours
Whether you love savory pot pies, vegetarian pies, or sweet dessert pies, this course will have you rolling with excitement. Students will create multiple different types of pies such as dinner pies, dessert pies, and breakfast pies. Roll up your sleeves and get ready for some delectable baked pies!

Let’s Do Brunch! - 3 Hours
Want to learn how to cook an amazing weekend meal? This class will walk you through the creation of some scrumptious brunch dishes. Don’t plan an expensive meal at a restaurant, learn how to make fun and creative culinary brunch creations in the comfort of your own home.

NEW* Vegan Cuisine - 3 Hours
Forget the meat and dairy! Come and learn some new vegan recipes to impress your guests at your next gathering. These healthy dishes will be satisfying for your mind and body!

Greek and Mediterranean Cuisine - 3 Hours
This class will focus on the delicious cuisine coming out of the Mediterranean region of the world. Explore the rich and flavorful dishes of Greece, Israel, Turkey, and other south eastern European and Western Asian countries from this corner of the globe.

Dessert Lovers – 3 Hours
Are you someone with a massive sweet tooth? Let the endorphins flow! Explore everyone’s favorite guilty pleasures and one of our exciting new classes. Join our chef for a night making a variety of amazing desserts!

Amazing Appetizers - 3 Hours
Forget the cheese and crackers! Come and learn some new amazing appetizer recipes to impress your guests at your next gathering.

Pizza Night! - 3 Hours
Learn how to make fresh, flavorful pizza at home! Our chef will teach you about sauces, cheese options, toppings and doughs. Learn how to turn these ingredients into mouth-watering meals.

Asian Cuisine - 3 Hours
This class will take you into the mainland Chinese and Japanese dishes, using spice mixes and implementing the different cooking techniques of the traditional proteins.

Soups, Soups, Soups - 3 Hours
Baby, it’s cold outside! Learn to make healthy and hearty soups. Put down the canned stuff and join our chef for an evening of healthy and easy soup making.

Ravioli From Scratch - 3 Hours
Making ravioli from scratch is easy to do and better than anything you can buy in a store. This course will introduce you to fresh pastas and delicious fillings. Make sure to come hungry!

Hearty Stews - 3 Hours
Not your mom’s stew! Learn to make a rich base and add layers of flavor to make a delicious meal. Learn the secrets to hearty, slow-cooked stews, just in time for the fall and winter seasons.

Delicious Dumplings - 3 Hours
No need to order out after tonight! Learn the basics of dumpling wrapping and explore filling and cooking options for your delectable dumplings. Get ready to fill and fold!

Pasta of Italy - 3 Hours
Homemade pasta of distinction! Create the perfect pasta dough and create endless variations and shapes. Next, you will make the perfect sauce to complement your culinary creation.

PERSONAL ENRICHMENT:

Beginner Guitar – 30 Hours
Even if you have never picked up a guitar before, you might be pleasantly surprised how simply and quickly you can learn how to play some of your favorite songs. In this 10-week course students will learn how to read music, learn basic chords and basic strumming techniques, and how to apply these chords to many popular songs. It is recommended that students have an instrument to practice on daily to get the most out of class instruction.

PLEASE NOTE: Students must provide their own guitar.

Beginner Guitar Part 2 - 15 Hours
This course is an extension of the Beginner Guitar class. Students will gain more knowledge of the fretboard by learning how to create scales. They will learn the theory of how to build chords, and then apply them to the guitar. They will also continue learning how these chords are used in many chord progressions and how they relate to the many songs that we will be playing in class. This course will require basic knowledge of guitar chords and music-reading ability.

Beginning Piano and Keyboard – 30 Hours
Learn quickly and easily how to comfortably make two hands work together on the piano or keyboard. This group class offers the same instruction found in the best private lessons. Students will need to purchase a book at the first session. It is recommended that the students have a piano or keyboard at home to practice daily assignments. Everyone learns at their own pace.

Intermediate Piano and Keyboard - 30 Hours
Those who have completed Beginning Piano or who have some previous music knowledge will be best prepared for this instruction. Students will study from a book which will be purchased at the first session. It is recommended that the students have a piano or keyboard at home to practice daily assignments. Everyone learns at their own pace. Prerequisite: Beginning Piano and Keyboard.

Getting Paid To Talk: Voice-Overs as a Profession - 2 ½ Hours
This exciting class will explore numerous aspects of voice-over work for television, film, radio, audio books, documentaries and the internet in your area. We will cover all the basics, including how to prepare the all-important demo. Learn how to be successful and earn a great income in this exciting field. Class participants will even have a chance to record a commercial script under the direction of our Voice Coach Producer.
PHOTOGRAPHY:

Digital Photography - Beginner - 12 Hours
Today it seems like smartphones may be taking photos as good as your DSLR (Digital Single Lens Reflex) or advanced compact camera. Now’s the time to learn just why you bought that expensive and heavy DSLR camera. You have the power and this class will teach you how to wield it. Move past the automatic mode and into the programmable modes of your camera including aperture and shutter priority. Gain a thorough understanding of your camera’s settings and functions. Learn proper exposure, focus control, ISO (International Standards Organization), release modes, white balance and much more. Bring your Digital SLR camera or advanced compact camera with you to class.

Digital Photography - Advanced - 12 Hours
Take your digital camera to its maximum abilities. Learn your camera’s advanced features and take pictures like the pros. This class is for those who are comfortable with how their DSLR (Digital Single Lens Reflex) camera works but need to know how to make this technology work for them. Covered in this class are: aperture and shutter priority modes, depth of field, custom exposure using a gray card, advanced white balance, forced perspective, painting with light, long exposure photography, remote flash, slow sync, high dynamic range, histogram, understanding bokeh, golden mean, shooting “raw” and more. Bring your camera and tripod to class.

Introduction to Photoshop - 12 Hours
Would you like to be able to edit and improve your photos? Learn how the Adobe Photoshop program can be used to brighten, darken, crop and enhance the quality of your downloaded photos. More advanced skills will include how to add text, remove specific parts of your image, and even create basic advertisements for your business.

Investing at Retirement - 1 ½ Hours
Whether you’re retiring now or years down the road, make sure you’re on track to live the retirement of your choosing. Review the five most frequently made financial mistakes by retirees and pinpoint three significant risks to your income and standard of living. When considering retirement it’s important to review your lifestyle expectations as compared with estimated expenses and sources of income. How much savings do you think you’ll need? Have you considered all the “what-ifs”? Explore the potential impact of health care costs and long-term care. Learn how to safeguard your assets and how to put together an income plan for life. Registration is required for this course.

HIGH SCHOOL EQUIVALENCY CLASSES
Orange-Ulster BOCES high school equivalency (HSE) classes are specifically designed to deliver comprehensive instruction to prepare students for the New York State Test Accessing Secondary Completion (TASC), formerly known as the GED. Our HSE instructors offer students a variety of instructional approaches to meet students’ individual learning needs. All courses integrate career readiness skills to help students achieve their goals.

OUBOCES offers Technology Based Instruction and a support staff to assist you with finding a job and/or continuing with college.

To become an HSE student you must......
• Be 21 years old
• Attend an Intake
• Complete the Test for Adult Basic Education (TABE Test)

CLASSES OFFERED IN ENGLISH AND SPANISH!

Please call (845) 781-6715 Option 1 for more information.
Our Literacy Zone focus is to:

- Identify educational limitations in the community and explore ways the Literacy Zone can meet those needs.
- Establish bridges and build relationships with organizations that enhance services to students.
- Match students with available resources in the community.
- Assist students in pursuing and reaching their goals.
- Inform students about classes and programs available through the Literacy Zone.
- Encourage regular class attendance and assist with barriers preventing students from coming to class.

"Let us provide you with the necessary guidance to enhance your life"

ORANGE WORKS CAREER CENTERS

What is Orange Works?
Collaborative one-stop employment centers, providing services to individuals seeking career opportunities and businesses building their workforces.

Job Seekers can access necessary tools for conducting an aggressive job search. Our resource area has a library, computers to prepare resumes, copiers, telephones, fax machines, related workshops and other services. Career assessment, testing and retraining programs are also available for targeted individuals.

Businesses can use the facility for recruitment purposes, such as posting job openings and meeting with potential hires. Our staff will provide links to services and programs, such as On-the-Job Training and government tax credit incentives. Save time, effort and money in pre-screening! Call us for your employment needs and visit one of our centers today!

ONLINE COURSES:

Learn from the comfort of home
Our instructor-facilitated online courses are informative, fun, convenient and highly interactive. All courses begin on the third Wednesday of each month and run for six weeks (with a two-week grace period at the end). Courses are project-orientated and include lessons, quizzes, hands-on assignments, discussion areas, supplementary links, and more. You can complete any course entirely from your home or office, any time of the day or night.

In tough economic times, it is sometimes difficult to participate in a costly certificated program that can help you get the job you want or advance in the one you have. Well, we’ve heard your concerns and Orange-Ulster BOCES is pleased to announce its partnership with Gatlin Education Services, that will allow you to finance a menu of on-line certificated program offerings. Listed below are just some of the courses offered!

• Grant Writing Suite
• Entrepreneurship Suite
• Paralegal Preparation
• Health and Well-Being
• And Much More!

COURSES START AS LOW AS $99
Log on to: www.ed2go.com/ouboces for more course offerings.

How To Get Started:
1. Visit our Online Instruction Center: www.ed2go.com/ouboces
2. Click courses link, choose department and course title you are interested in and select Enroll Now button. Follow instructions to enroll and pay for your course.
3. When your course starts, return to our Online Instruction Center and click the Classroom link. To begin your studies, simply log in.
GENERAL INFORMATION:
Further information regarding OUBOCES programs may be obtained by calling the OUBOCES Office of Adult Educational Services in Newburgh (845) 781-6715 EXT. 2. Due to the great number of phone calls we must rely on our voicemail system. Please make sure you leave your phone number and the call will be returned promptly. Registrations must be received two business days prior to class start.

COSTS
Textbooks and supplies are not included in tuition costs. Additional supply fees are paid at time of registration. Some courses have a supply list of materials to be purchased by the student for the class. Some courses require approved eye protection. The course instructor will explain specific requirements.

TEXTBOOKS
Go to ouboces.org and hover over the orange Adult Education tab. Choose ‘Textbook Information’ to view a list of the required books for each class. Textbooks are to be purchased by the student and brought daily, starting with the first day of class. Textbooks are not included in the tuition price (exception: Nurse Assistant).

PREREQUISITE REQUIREMENTS
Some courses have prerequisite requirements including testing, interviews and more. A student planning to register for an advanced course without having taken the basic course(s) should first inquire at the OUBOCES Adult Education office for advisement.

COMPLETION CERTIFICATES
For programs offering national NHA and NCCER certification, students must maintain a 85% attendance rate to receive an OUBOCES Certificate of Completion and to sit for national certification exams. Courses less than 10 hours do not qualify for certificates. Print your name on the registration form as you wish it to appear on the certificate; later changes in spelling will result in a $5.00 fee.

SPECIAL FEES
A change or drop of a non-certified program incurs a fee of $10.00. A change or drop of a Certified (72+ hours) program incurs a fee of $100.00 The returned check fee is $25.00. The duplicate document fee is $5.00 Students who request duplicate receipts or transcripts are required to pay a $5.00 fee for each instance. Please allow two (2) weeks for request fulfillment. Records are kept for six (6) years.

NO CHILDREN (UNDER 18)
Children may not accompany students to class. Anyone under age 18 may NOT register for or attend adult vocational classes in any capacity.

EMERGENCY CLOSINGS AND DELAYS
School closings will be announced on the OUBOCES website, through OUBOCES News Notifier, local radio stations or call (845) 781-6715 for announcement.

COURSE CANCELLATION
The offering of all courses is at the determination of the Orange-Ulster BOCES, which reserves the right to cancel courses at any time.

DISCLAIMER
We require our instructors to teach in their areas of expertise. Our instructors are not permitted to use the classroom for personal gain, nor to solicit clients or customers. Therefore, we are not responsible for any advice or consultation given beyond classroom setting and course curriculum materials.

PERSONS WITH DISABILITIES
Our facilities are accessible to persons with disabilities. Please notify us at the time of registration to discuss your individual requirements.

TITLE IX COMPLIANCE
Orange-Ulster BOCES operates all programs in compliance with the federal and state laws which prohibit discrimination because of race, color, religion, creed, national origin, political affiliation, sex, age, marital status, sexual orientation, pregnancy, military status, veteran status, genetic predisposition or carrier status, ancestry, disability or any other legally protected status. The Compliance Officer is Theresa Reynolds, Assistant Superintendent for Instruction and Title IX/Section 504/ADA Coordinator, (845) 291-0100 Extension 10120.

ATTIRE
Proper attire is required. No tank tops or open shoes in culinary areas, Trade, Auto, Welding and Health Careers classes have specific attire, see course descriptions and Student Handbook.

REFUND POLICY
Occupational Certification Programs
This pertains to all Certified Occupational Health, NCCER Construction Trades, Automotive Academy, and all other training programs containing 72+ hours of instruction.

1. Refunds for classes canceled by Orange-Ulster BOCES
100% of the tuition and fees collected will be refunded. The refund shall be made within 45 days of the planned start date.

2. Refunds for students who withdraw before the first day of class
If student withdraws before the first day of class, $100 of the tuition is retained by the agency. Appropriate refunds shall be made within 45 days of the class start date. There is no refund if the class is not formally dropped BEFORE the first day of class.
   *Payment plan fee ($105) is non-refundable.

All Other Classes
If a class is dropped by the student prior to the first day of class: $10 drop fee is retained from the refund as a drop fee. Thereafter, NO REFUND.

Any refunded money will be for tuition only and does not include book or supply fees. Please allow 45 days for refunds.
REGISTRATION FORM (one per person)

DO NOT use this form to register for NCCER, NHA or any other programs that offer National Certification. See beginning of catalog for info on how to enroll in those programs.
